Education

Shiv Nadar University Chennai
B.Tech in AI & Data Science

2024–2028

Skills

Programming: Python, JavaScript

Web Development: HTML, CSS, Bootstrap, Tailwind CSS, React.js, Node.js, Express.js

Databases: SQL, MongoDB

Tools & Technologies: Git, GitHub, REST APIs

AI / Data Science: NumPy, Pandas, Machine Learning (Basics), Deep Learning (Basics), Transformers

Projects

1. AI Nutrition Coaching MVP

[GitHub](#)

Node.js, Express.js, JavaScript, Gemini API, SQLite, REST APIs

- Built a full-stack AI nutrition assistant converting text and voice meal logs into structured macro data and personalized insights
- Implemented Gemini-based structured extraction, next-meal coaching, and daily summaries improving user tracking workflow efficiency
- Designed a correction-learning pipeline using SQLite and embeddings-based retrieval to adapt to user-specific food patterns
- Developed responsive frontend with dashboards, meal editing, and voice logging for end-to-end user interaction

2. ISO Earnings — AI-Driven Income Protection MVP

React, Tailwind CSS, Node.js, Express.js

- Built a full-stack fintech MVP verifying shift-income loss and computing disruption-based payouts for gig workers
- Designed an AI-driven decision layer for expected-earnings prediction, risk scoring, trigger confidence, and anomaly detection
- Implemented region-locked workflows with location validation, claim submission, and payout eligibility to reduce fraud
- Architected modular backend (business rules, AI scoring, REST APIs) with PostgreSQL-ready persistence

3. Centralized Volunteer Management System

SQL, Database Design

- Developed a centralized database system to manage volunteers, organizations, and opportunities
- Designed relational schema improving structured data handling and query efficiency
- Implemented skill-based recommendation logic for better volunteer-opportunity matching

Achievements

- Led a team in GDG on Campus Hackathon and advanced to semifinals among multiple competing teams
- Participated in SNU Hacks university-level hackathon solving real-world tech problems
- Qualified multiple rounds in National AI/ML Hackathon (AVEVA & IIT Hyderabad)

Positions & Activities

- Sponsorship Crew Member, SNU Business Club — contributed to partnerships, outreach, and event coordination
- Volunteered in Invente tech fest and multiple business club events demonstrating teamwork and execution
